

Cold case Files 11/28/04. Why did CBS run this sick, disgusting show that has evil triumph over good. You the network have a 'contract' with your viewers. When I tune in I know what I allow you to bring into my home. Last nights show broke that contract. If you want to become a edgy gritty network give up your license and go cable. The vile portrayal of the victims in this show, the smug killer , the helplessness of the law enforcement all shown with such graphic detail and glee do not represent broadcasting for the public good. I will never view this show again or trust CBS to deliver on their bond with America.
